Cloud computing resources and costs overview
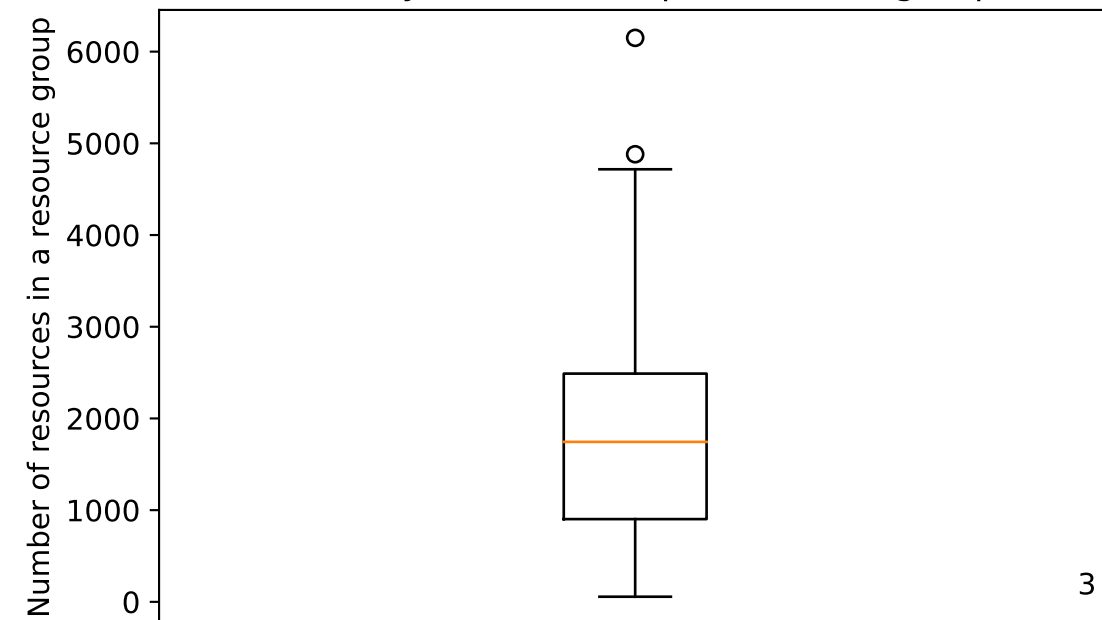

Spending over time (total and 3 most expensive projects)

Legend:
- Total spending
- a1041
- a1026
- a1062
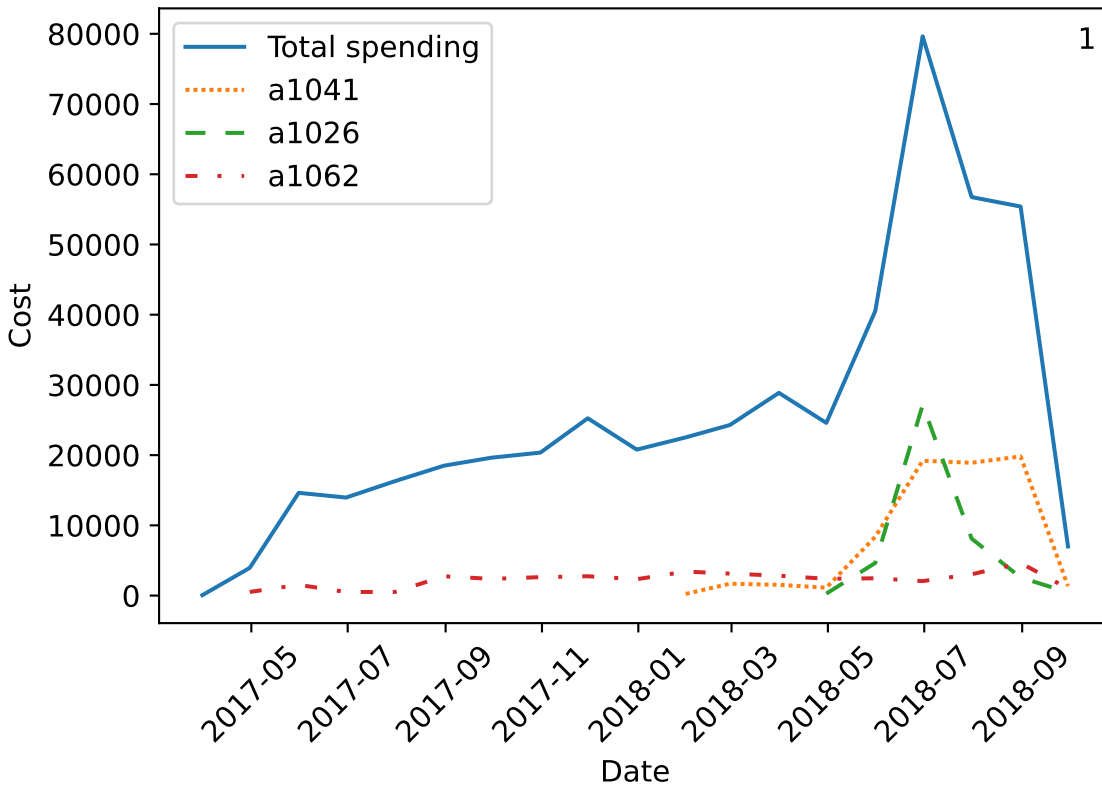

Constituent costs of the 50% most expensive projects

Legend:
- Compute/disks
- Compute/virtualMachines
- Network/privateEndpoints
- RecoveryServices/vaults
- Sql/servers
- Storage/storageAccounts
- insights/actionGroups
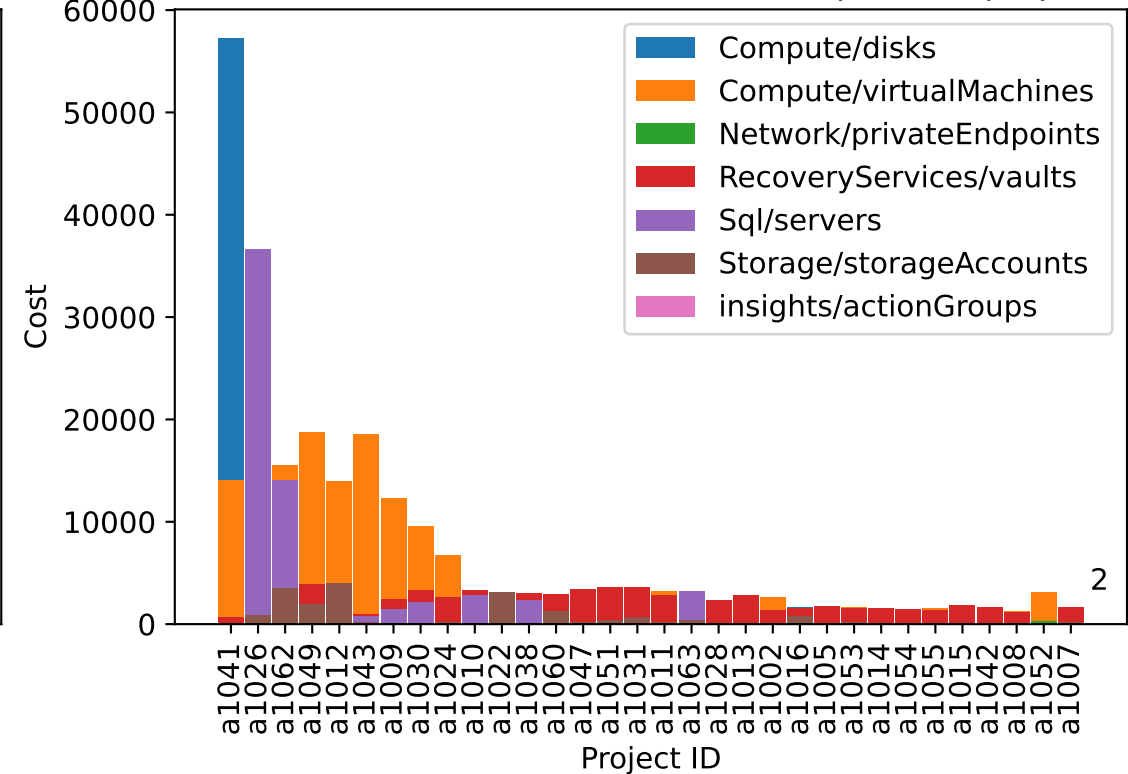

Quantity of resources per resource group

Total cost for each resource type across projects

disks
131509.76

virtualMachines
158556.51

private Endpoints
29609.14

storage Endpoints
29609.14

servers
63231.42

vaults
89902.42
